

Savings

Ready technology makes it possible to complete the entire Frozen Dessert production process in just one machine.

Safety TEOREMA guarantees facilitated assistance by providing online monitoring and diagnosis on a tablet, phone or PC wherever you are. Automatic defrost starts during power outages to avoid damage to the beater. Rounded corners reduce risk of injury to operator.

Hygiene Cleaning is easier thanks to the high temperature cleaning cycle and removable extraction chute. The cylinder and front panel is continuous stainless steel for maximum cleanliness and hygiene. Scoth-Brite treated steel is resistant to stains and fat residues. "Postponed cleaning" program guarantees hygienic safety even during prolonged production stand-by due to washing out remaining product residuals left at the end of the batch freezing cycle. Ask your Carpigiani dealer for the "Carpi Care Kit" to best maintain your Ready model.

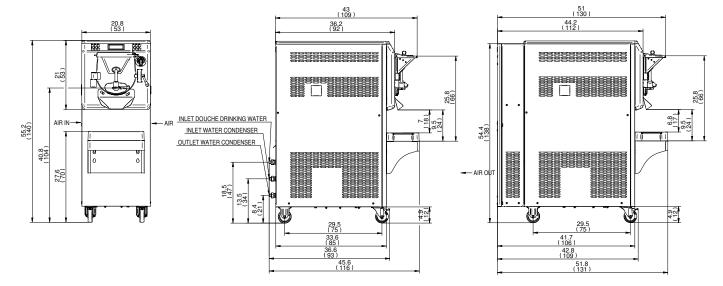

*request the kits from your distributor to maintain your machine hygienically clean.

Specifications

Electrical

A dedicated electrical connection is required. Manufactured to be permanently connected. See the Electrical chart for the proper electrical requirements. Consult your local Carpigiani distributor for cord & receptacle specifications as local codes allow.

Beater Motor

4,6 HP

Refrigeration System

R449A

Water Cooled

Water inlets and drain connections in the rear 1/2" MPT

Air Cooled *

Minimum clearance: 43" (110 cm) on both side panels and 20" (51 cm) from the rear panel for proper air circulation.

Cylinder Capacity

27 quarts (26 liters)

All specifications mentioned must be considered approximate; Carpigiani reserves the right to modify, without notice, all parts deemed necessary. This unit may be manufactured in other electrical characteristics and may have additional regulatory agency approvals, please consult the local Carpigiani Distributor. Check name plate for exact electrical data. * Room temperature 68 °F (20 °C).
